SSCIT-26

Prolog
Charters + Guidelines + NIA

25X1

26. [REDACTED] LIAISON Talked with Deanne Seimer, DOD General Counsel, regarding the status of DOD reviews of the Senate Select Committee on Intelligence draft of Title I. Ms. Seimer indicated that they had prepared drafts of both Title I and II which included an individual charter for NSA and she would be happy to make these available to us if we did not have copies. She suggested that we try to reach an agreement on the text of the draft, at least of Title I, which could be submitted to the NSC and to the Senate Select Committee. I told her I would look into this and be back in touch with her tomorrow.
